

White Label App Documentation

It takes large amount of investment to develop an app on your website for your customers to book rides in 100+ countries and regions with extensive vehicle selections from sedan to coach bus. Elife's white label kit enables partners to quickly drop Elife's leading ride booking widget in their websites with minimal development and to start earning commission on those rides.

Steps to Run the application

1. Please download the zip folder called white-label-app.zip into your local folder. Inside this zip folder there are three files: index.html, logo.png and style.css. This is all you need.
2. In order to run the application, please open the index.html on computer with your browser. The Elife ride booking page will be displayed in the browser as follows and you can book as if you are on Elife's home page.

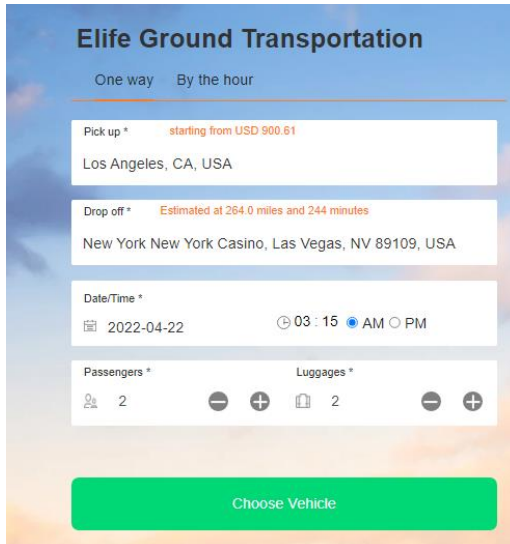

Note: please make sure all three files (index.html, logo.png and style.css) exist in the same folder. If one of the files is missing or misplaced into another folder page may not function as intended.

3. To test how it works

- Put an input value in the ride form (Pick up location, Drop off location, Date/Time) and click on "Choose Vehicle"

Example:

Elife Ground Transportation

One way By the hour

Pick up * starting from USD 900.61
Los Angeles, CA, USA

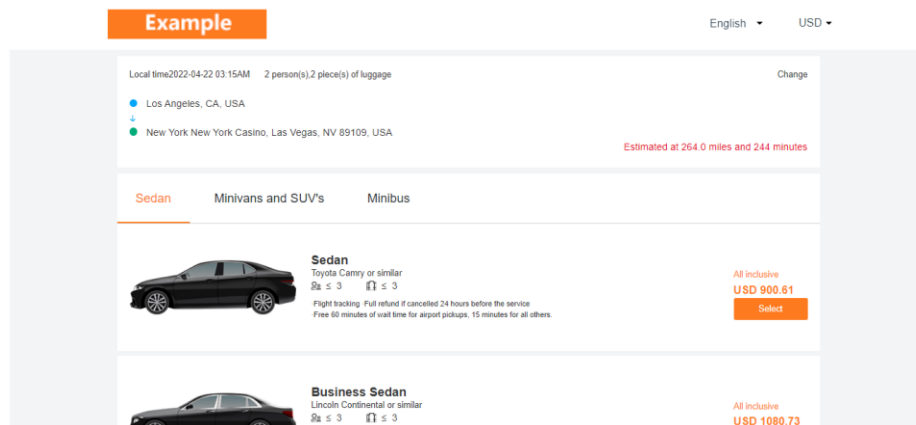

Drop off * Estimated at 264.0 miles and 244 minutes
New York New York Casino, Las Vegas, NV 89109, USA

Date/Time *
2022-04-22 03:15 AM PM

Passengers * Luggages *
2 2

Choose Vehicle

- New page will be rendered to with a list of cars.

Example English USD

Local time: 2022-04-22 03:15AM 2 person(s) 2 piece(s) of luggage Change

Los Angeles, CA, USA
New York New York Casino, Las Vegas, NV 89109, USA Estimated at 264.0 miles and 244 minutes

Sedan Minivans and SUV's Minibus

Sedan
Toyota Camry or similar
2 ≤ 3 1 ≤ 3
Flight tracking. Full refund if cancelled 24 hours before the service.
Free 60 minutes of wait time for airport pickups, 15 minutes for all others.
All inclusive
USD 900.61
Select

Business Sedan
Lincoln Continental or similar
2 ≤ 3 1 ≤ 3
All inclusive
USD 1080.73

- c. Please choose a car of your choice and click on “Select” to proceed to the next page. A form with a contact information will appear. Provide a value for those field and Click “Pay” button.

Example

English ▼ USD ▼

Contact Information <div style="display: flex; justify-content: space-between;"> <div> Name * John </div> <div> Salutation * Mr </div> </div> <hr/> <div style="display: flex; justify-content: space-between;"> <div> Email * john@gmail.com </div> <div> Cell phone number * +Select 0909325443 </div> </div> <hr/> <div style="display: flex; justify-content: space-between;"> <div> Alternate cell phone number +Select Cell number of the customer </div> <div> Select an app to contact Select Please enter your account </div> </div>		Detail Vehicle service- ----- USD 900.61 Meet and greet- ----- USD 11.80 <div style="text-align: right; color: red;">Total price USD 912.41</div> <p>You will be redirected to Stripe, a leading US financial service company, to make a secure payment.</p> <div style="background-color: #f4a460; text-align: center; padding: 10px; margin: 10px 0;">Pay</div> <p>By clicking Pay, you indicate that you have read and agreed to 《Booking Notice》</p>
Comments <div style="display: flex; justify-content: space-between;"> <div> Meet and greet sign USD 11.80 ⓘ Welcome Mr John </div> <div> Notes to driver Additional information, such as car seats, etc </div> </div>		<div style="border: 1px solid #ccc; padding: 10px; margin-top: 10px; text-align: center;">Contact us</div>
Local time 2022-04-22 03:15AM 2 person(s), 2 piece(s) of luggage Change <div style="display: flex; align-items: center;"> ● Los Angeles, CA, USA </div>		

Note: Please fill out all required fields.

- d. Then finally a stripe page for payment will be rendered here as follows:

ride 2268225

\$912.41

Powered by stripe Terms Privacy

Pay with card

Email john@gmail.com

Card information

VISA MASTERCARD AMEX DISCOVER

1234 1234 1234 1234

MM / YY

CVC

Name on card

Country or region
Ethiopia ▼

Pay

You will see ride id and service fee to be paid to page on the left top corner. This ride id will indicate to that your ride is ready to me create.

Even though the index file is local on your computer and the web address on your browser shows the local, you are connected to Elife’s production booking widget and API. If you make payment for the ride, Elife will deliver the service.

How to configure/customized white label app

Configuration

Part of this app are open for customization and/or configuration. In order to configure the app please contact us (To business development team at Elife) to get *Affiliate ID and Affiliate Name*, which is allocated to you.

After getting the affiliate id and name please open the index.html in an editor like visual studio code or notepad++ or another editor too. Scroll down or searches where *affiliate_id* and *affiliate_name* then change them with the new given name.

'affiliate_id=<<given id>>&affiliate_name=<<given name>>'

Example:

```
260         } else {
261             newQryStr = '?'
262         }
263         _incl('front-inc', 'src', _path, 'front.html' + newQryStr + 'affiliate_id=16&affiliate_name=Charlie');
264     </script>
265     <div class="no-front-part" id="no-front-part">
266         <div class="man-box" id="man-box" style="display: none;">
```

How to change logo

To change logo please replace the “logo.png” file with your own logo with the same name as before. Then open the “index.html” file in the editor and search for *src="logo.png"*

```

```

Adjust the width and height of the logo here.

Note: if you have a logo hosted on the web you can also place the address of the logo inside the src as:

```

```

Integration with your website

To integrate the white label kit with website please create a folder called "book-a-ride" inside your website source folder and put customized white label kit files (the three files) in the "book-a-ride" folder. "Book-a-ride" is just an example; you are free to choose whatever examples you want.

Then create a URL path pointing to "book-a-ride/index.html". For example, if your website's address is "xyz.com/" you can add an URL path as "xyz.com/book-a-ride" then when your user goes to the URL, they will see the white label page and book an ELife ride while the URL is still "xyz.com/book-a-ride".

To login to white label example affiliate and access to booked rides.
